This project is based on Web Development And its Applications. The main objective of this project is to learn the implementation of HTML, CSS and JavaScript. The basic webpage of this project is created using HTML and styling of the webpage is done using CSS.

This webpage is about one of the greatest companies of all time Quiant Trainings which ensures to help students in trainings and placements.

ABOUT QUIENT TRAININGS

Quient training is an enthusiastic group intended to train students in colleges that are denied the privilege of Placement training, A group of Enthusiasts now have a vision of training students that don't have access to placement training that can help them get placed, and thereby build their future.

We at Bionic Engineers, a company formed by a group of enthusiasts that have the vision of providing the exact placement training required to increase the probability of getting placed.

WHY PLACEMENT TRAININGS ARE IMPORTANT?

Why is Placement training important: Placement training plays a major role in shaping up the career goals of students. It is the dream of every engineering student to get placed in a top organization visiting their campus for recruitment. Keeping this key aspect into consideration, it is realized that training is important for engineering the students to enhance their employability skills and achieve good placement in various Industries.

At present, the competition for employment is increasing every day and placement has become a challenging task. Training students and equipping them with life skills has become an important responsibility of the institution. Along with technical expertise, the development of a holistic personality is also necessary.

Objectives and Training Activities by QG(Quient Group):

The prime objective of the Training Cell is

- To look for 100% employment for all students.
- To recognize the core competencies of the students.
- To train the students to meet the expectations of the industry through our Career Development Programmes.
- To build confidence in students and develop the right attitude in them and
- enhance their communication skills.

Training Activities :

- Create awareness about "career planning" and "career mapping" among the students.
- Equip the student with life skills.
- Train the students on "Personality development".
- Organize Various Training Programmes to train the students in the areas of Quantitative Aptitude, Verbal Ability, Logical Reasoning.
- Train the students through Mock Interviews to perform well in the professional interviews as per the expectations of the corporate world.
- Train the students on group discussion techniques.
- Conduct online tests and written aptitude tests.

TOOLS USED

Software Requirements

- Visual Studio Code 2019.
- Google Chrome or Microsoft Edge of latest version.
- Front End: HTML, CSS, JS (optional)
- Back End: MySql
- GitHub
- Linux 7.1 or Windows XP/7/8/10 OS or Mac OS

Hardware Requirements

- Pentium 200-MHz computer with a minimum of 64 MB of RAM (128 MB of RAM recommended).
- Monitor with a refresh rate of at least 40Hz for a smooth GUI experience (optional).
